## **Diabetic Food List: Best and Worst Choices**

Making healthy food and drink choices is key to managing diabetes. Here are some guidelines for choosing the best and avoiding the worst.

## **Risk Factors for Oral Cavity and Oropharyngeal**

## **Cancers**

When diagnosed with oral cavity or oropharyngeal cancer, it's important for people who smoke or use oral tobacco, to quit smoking and quit all oral tobacco products. People who continue to smoke while getting cancer treatment can have trouble with wound healing, more side effects from radiation therapy or chemotherapy, a higher risk of infection, and worse

outcomes.
