Debunking Evolution - Scientific evidence against ...

Many years of study of countless generations of bacteria and fruit flies all over the world shows that evolution is not happening today. Mutation - natural selection Here is

how the imaginary part is supposed to happen: On rare occasions a mutation in DNA improves a creature's ability to survive, so it is more likely to reproduce (natural selection) .

Compassion: An Evolutionary Analysis and Empirical Review

Compassion is controversial. Within studies of morality, theoretical claims about compassion reach contrasting conclusions: some theorists consider compassion to be an unreliable guide to judgments about right and wrong, whereas others view compassion as a source of principled moral judgment (Haidt, 2003; Nussbaum, 1996, 2001). Within debates about the nature of ...
