Briggs and Stratton Ignition Coil Test | Push Mower Repair

I have a Briggs & Stratton lawn mower with a Quantum

675 engine (126T024830B1). Suddenly it died on me a few days ago and I can't figure out why. Initially I thought that gasoline was contaminated, so I had the fuel tank removed and cleaned. I did the same with the carburetor, but to be honest I didn't find much debris into either of those.
