# **Protein Bioinformatics Databases and Resources**

We present a summary review (with categorization and description) of protein bioinformatics databases and resources in Table 1. The databases and categories presented in Table 1 are selected from the databases listed in the Nucleic Acids Research (NAR) database issues and database collection, as well as the databases cross-referenced in the UniProtKB.

## **Ask HN: Who wants to be hired? (January 2022) | Hacker News**

I have 22 years of total experience in app modernization and custom built solutions. I'm less hands on these days

but do enjoy crafting solutions and ensuring delivery success. I'm looking for something leadership-esque (maybe director or vp in industry) or to possibly partner on a new venture where I can do a little bit of everything.

### **UCSC Genome Browser: News Archives**

12/12/2013 · "SNPs" tracks were previously based on related mysql database tables, but the new bigDbSnp format is a bigBed file with extra columns that contains

all necessary information to display the variant. An accompanying dbSnpDetails file contains additional data displayed in the item details page. Schemas are available for both bigDbSnp and dbSnpDetails.
