How to clear Cat & Mitsubishi forklift error codes ...

13/1/2015 · 1. Start the stopwatch and turn the forklift key switch on

simultaneously. Do not press the accelerator.. 2. Wait 3 seconds, then press the forklift accelerator five times in succession, ending the set of five with the

pedal released. You need to do this within 5 seconds—if pushing the accelerator five times in a row takes longer than 5 seconds you risk never clearing

the codes.

The Car Hacker's Handbook

The EDR constantly
stores information,

typically only about 20 seconds worth at any one time. This information was originally stored in a vehicle's airbag control module (ACM), but today's

vehicles distribute this data among the vehicle's ECUs. These boxes collect data from other ECUs and sensors and store them for recovery after a

crash.
