NURSING AS CARING by Anne Boykin and Savina O. Schoenhofer

20/6/2013 · Nursing science must be contextual; the decontextualized methodology of formal science, while essential for certain disciplines, cannot reveal direct knowledge of nursing. Because of the nature of nursing, nursing science must permit intentionality, intimacy, mutuality, and particularity.

Transformational Teaching: Theoretical Underpinnings ...

Active learning and student-centered learning. At the heart of active learning is the notion that students must read,

write, discuss, and engage in problem solving to maximize their potential for intellectual growth (Bonwell and Eison 1991; Meyers and Jones 1993; Svinivki and McKeachie 2011). These activities are important because they engage higher-order cognitive strategies ...

What Causes Gender Inequality? - Analytical Strategies ...

This guide stresses the systematic causal analysis of gender inequality. The analytical questions raised and the readings listed consider why and how gender inequality arises, varies across and within societies, persists over generations, produces conformity by individuals and institutions, resists change, and sometimes changes dramatically.
