KEVA Planks Official Website

KEVAplanks.com is the most complete collection of everything

related to KEVA Planks - including
all KEVA products, custom KEVA
products, Teacher resources, games

and activities for children and families, STEM activities, project ideas, impressive builds, expert

advice. An advocate for makerspaces
and creativity.

Statistics - Frequency Distribution

Frequency distribution is a table that displays the frequency of various

outcomes in a sample. Each entry in the table contains the frequency or count of the occurrences of values

within a particular group or interval,
and in this way, the table summarizes

the distribution of ...

Determine which characters in

input strings are of ...

Input array, specified as a string array, character array, cell array of

character vectors, or numeric array.

If `str` is a numeric array, then

`isstrprop` treats the numbers as

Unicode ® character codes. If the numbers are double- or single-precision floating-point numbers,

then `isstrprop` rounds them to the nearest integer values before

interpreting them as character codes.

Symbolic Math Toolbox -

MATLAB

Symbolic Math Toolbox provides a set of functions for solving, plotting,

and manipulating symbolic math equations. You can generate MATLAB functions, Simulink

function block, and Simscape
equations directly from symbolic
expressions or you can share your

work using the MATLAB Live
Editor.
