4K Resolution is an important feature when choosing a projector, - yet many people don't know that a PRO-UHD projector has only half the resolution of a 4K UHD television or projector. This article shows how to make sure you buy a true 4K UHD model that delivers over 8 million pixels.

## **Epson - Home Cinema 3800 4K 3LCD Projector with High ...**

The projector has three 1080 LCD panels that employ “pixel shifting”. This pixel shifting increases the resolution and clarity over native 1080 panels. I did find that the native 4k images displayed utilizing the Epson’s pixel shifting technology looked noticeably sharper and crisper than a native 1080p image did with no enhancement.
