Besides 4K, it can also record 1080p at up to 60 fps in an 8-bit 4:2:2 50 Mbps .MOV file, or in AVCHD for compatibility with consumer editing software. For monitoring, there is a flip-out LCD screen with a 920,000-pixel panel, plus a 0.24" viewfinder with 1.56-megapixel resolution—the latter being especially helpful when working in bright daylight.

Ask HN: Private Alternatives to Alexa? | Hacker News

15/12/2021 · Then there's the built-in proprietary Alexa/Google-home support in a lot of consumer goods as well. There's hardware widgets that you can get to effectively rebuild Alexa type hardware with an off the shelf SBC, but I think I'm on the ball here when I say most people don't want to do that, and/or don't have the hardware skills either.

It's not still the early days of blockchain | Hacker News

15/1/2022 · This is even true at the consumer level: the consumer may want to know the supply chain information for various purposes, regulators certainly want to know it, business partners certainly want supply chain documentation, but a consumer would balk at the notion that they expose all of their credit card transactions to the entire world at all times.
