### User (computing) - Wikipedia

A user is a person who utilizes a computer or network service.. A user often has a user account and is identified to the system by a username (or user name).Other terms for username include login name, screenname (or screen name), account name, nickname (or nick) and handle, which is derived from the identical citizens band radio term.. Some software products provide services to other systems ...

### Chrome User Experience Report | Chrome UX Report | Google ...

13/5/2021 · The metrics provided by the Chrome User Experience Report are powered by real user measurement data. As a result, the data reflects how real users experienced the visited origin and, unlike synthetic or local testing where the test is performed under fixed and simulated conditions, captures the full range of external factors that shape and contribute to the final user experience.

### Wikipedia:User access levels - Wikipedia

The user access level of editors affects their abilities to perform specific actions on Wikipedia. A user's access level depends on which rights (also called permissions, user groups, bits, or flags) are assigned to accounts. There are two types of access leveling: automatic, and requested. User access levels are determined by whether the Wikipedian is logged in, the account's age and edits ...
